

district does not have to send them unless they agree to the price. Number two, it is a deductible item in state aid only to the level of the insured need which is \$960, and again the purpose of it is to help out some unique districts in terms of those taking a large number of free high school tuition students and again I think it is a fair way to try to resolve a problem and we have tried to do that and I would urge the adoption, and I didn't take the three minutes, Senator Koch.

SPEAKER LUEDTKE: We will now have, Senator Koch, will you close by way of reply.

SENATOR KOCH: Mr. Speaker, members of the body, this is nothing more than an effort to help certain schools who receive a large number of nonresident students. Now there are two school boards involved. If I am a sending school system and someone else is a receiving school system, we can negotiate that nonresident tuition fee but the law says it shall be no less than. I have the feeling that with the adoption of this amendment that the Class I schools who are really the senders and the others who are the receivers, the high school systems, now for the first time will be able to set down with some degree of negotiating powers and say, listen, under state aid you have been given some relief, therefore, we would expect that there would be some relief given to us in terms of what the fees are you are going to charge for those students coming out of our Class I schools to your system for the high school education. That is the purpose. I don't think it is unreasonable. I think it is absolutely fair because for many years certain schools have been educating nonresident students at an expense to them and to the residents who pay the high property tax. Therefore, I ask for the adoption of amendment #2. Thank you.

SPEAKER LUEDTKE: All right, the question is the adoption of the Koch amendment #2 on LB 33. All those in favor vote aye, opposed nay. Record the vote.

CLERK: 29 ayes, 2 nays on motion to adopt.

SPEAKER LUEDTKE: The Koch amendment is adopted and the time has elapsed for discussion on LB 33 today. I just might add that it will be on the special order for tomorrow for an hour, and then unless there are other amendments to be taken up, we will discuss the bill in general and I am going to hold the same list for your information. Correct me if you do not want your name on here. I had Senator Marsh, Senator Frank Lewis, Senator Lamb, Senator Schmit, Senator Dworak and Senator Murphy, in that order, at the time we had the general explanation and we will hold to that list by way of priority for speaking on the general bill tomorrow. So that will conclude LB 33. We will take up now some noncontroversial matters on Select File so we can get the E & R amendments under way. Senator Cullan, yes, LB 238. Senator Cullan.

SENATOR CULLAN: Mr. President and members of the Legislature, I move that the E & R amendments to LB 238 be adopted.

SPEAKER LUEDTKE: Motion to adopt the E & R amendments to LB 238. Any discussion? All those in favor say aye, opposed nay. The E & R amendments to LB 238 are adopted. Senator Cullan.
